-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: amendment filed on 10/22/04.
2. This application has been reconsidered. Claims 1-8 are pending.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation "...the paper feeding tray selected by the current job is locked not to be pulled out from there" is indefinite. It is unclear what "there" refers to.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
6. Claims 1, 2, 3, 4, 5, 6, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Morikawa (U.S. 5,812,901).

With respect to claims 1, 6, and 8, Morikawa discloses an image forming device (figure 1) having a function for suspending a current job and executing an interrupting job (the abstract), comprising a plurality of paper feeding trays (80); and a judging portion for deciding whether the interrupting job can be permitted to use a paper feeding tray selected by the interrupting job in case the selected paper feeding tray corresponds to the tray used by the current job (column 1, lines 47-60).

With regard to claim 2, Morikawa discloses the judging portion does not permit the interrupting job to print data on paper when a paper feeding tray selected by the interrupting job corresponds to a tray selected by the current job but permits the interrupting job to print data on paper when the paper feeding tray selected by the interrupting job is different from the paper feeding tray selected by the current job (column 10, lines 27-45).

With respect to claim 3, Morikawa discloses selecting a different paper feeding tray if the tray selected by the interrupting job corresponds to the tray of the current job (column 11, lines 29-47).

With respect to claims 4 and 5, Morikawa discloses detecting the number of sheets in each tray (which reads on determining whether a tray is empty) and permitting the interrupting job to be executed if the number of sheets in the tray exceeds the number of pages in the job (column 15, lines 26-31).

With regard to claim 7 (as best understood), Morikawa discloses means for “locking out” a feeding tray (which reads on preventing a sheet from being fed) (column 17, lines 37-39).
